

TATYANA KARLEN

FULL-STACK/FRONT-END DEVELOPER

Toronto, Ontario 
tatyanakarlen@gmail.com 
www.tatyanakarlen.com 
416-662-6937 

PROFILE

I'm a full-stack developer with a passion for frontend development. I successfully completed GA's **Software Engineering Immersive** program where I learned full-stack development and computer science fundamentals and the industry's most in-demand technologies.

EXPERIENCE

2022 905devshop (2022-current)
Intern - Frontend/Full-Stack Developer

- Frontend/full-stack developer intern on a small team using agile development process
- Currently working on a dating app using Next.js, MySQL and ChakraUI

2020 Sutton Group (2020-current)
Digital/Web Marketing, CMS

- Real estate web and digital marketing for SEO
- Creation of new construction pages on third-party content management systems (Wordpress, Point2)
- Creation and delivery of engaging web content
- Design marketing materials for distribution across various web advertising platforms

2013 Alla Breve Academy of Music (2013-2022)
Piano and music theory teacher

- Piano performance and music theory instructor
- Other duties included schedule coordination and examinations

EDUCATION

November 6nd, 2022

To: Hiring Manager at Digistaff,

Thank you very much for taking the time to review my application. I'm a full-stack developer with a passion for front-end development. I'm comfortable working with a wide array of technologies.

I'm experienced with HTML, CSS+Sass, Javascript, React, Bootstrap+Materialize CSS, Wordpress and Elementor, JQuery, Node.js, Express, Python, Django, scrum/agile, npm, REST/REST-API's, Git/GitHub and data modeling in SQL and NoSQL databases.

I studied visual merchandising, marketing and digital media in my fashion arts program at Humber College. I currently work as a digital marketer for Sutton Group where I am solely responsible for advertising materials, content management systems and web-marketing. I'm also interning at a small start up called 905devshop as a frontend/full-stack developer.

I completed a six-month intensive Software Engineering course with General Assembly, and was praised by my teacher (a senior developer) as being the hardest working person in my cohort. My final grade was 4 out of 4, 'Exceeds expectations' (transcript and certificate available upon request).

I have many to most of the skills you seem to be looking for as per your job posting and would love the opportunity to discuss the role and my application.

Please check out my current portfolio and github and I hope to hear from you soon!
